The demand for this class of goods is confined

The sales of loose tobacco at Centre Warehouse last week amounted to 133,730 pounds. This week some of the firest jots of bright wrappers from onthwest Virginia and Western North Carolina een in Richmond for some time will be offered for

activity for all classes, especially for working tobac-cos. The receipts and sales of prized leaf are largeto the fucrease. The falling off in the receipts of loose to bacco is marked, and it is the general impression that there is but little more of this class to come. The transactions in Western leaf (while liming \$250.50 \text{ 1.000}, \$100.50 \text{ 1.0 ited) are on the increase, and we look forward to a more active market in this, as in all classes of prized leaf, as soon as the loose tobacco is out of the way the sales of which at present come in direct conflict with the sales of prized tobaccos. The transactions in bright tobaccos have been confined mostly to such

is are taken for export. San cured tobaccos are i emand, and if fine command fine prices. RECEIPTS. Hhds. Tierces. for week ending February 7, 853 week ending February 14. 864 321 1.717 611 Total Virginia..... We tern. Hads. Tierces.
